WORK HISTORY

K and R Software

Independent Contractor // Peach Grove, KY // September 2023 - present

- Medical Web Application:

- Format code per PHP standards.
- Clean up old code to bring it up to standard.
- Add Traits where needed.
- Run files through the linter. Fix what the linter says is broken.
- Add files as directed.

- Farm Inventory and Tracking App using Rails:

- Built the initial application in Rails
- Instantiate the database
- Install and configure Devise
- Install and configure Active Admin
- Configure Slim for the views
- Instantiate routes

- Real Estate Listing Application:

- Refactor the app to pull from an API rather than XML files.

Ingramm Micro

Photographic Repair Tech // Hebron, KY // March 2022 – September 2023

- Inspect returned camera equipment for damage.
- Repair damage to digital cameras and camcorders.

- Test completed repairs.
- Document completed repairs and testing.

DoorDash

Driver // Florence, KY // March 2021 – March 2022

- Deliver food orders to houses.
(I did this to pay the bills while I studied Software Development)

Educational Counseling Services Non-Profit

Sr. Divisional Supervisor // Cincinnati, OH // March 2002– April 2020

- Oversee employee divisional training.
- Supervise and review employee production.
- Provide remedial training where needed
- Coordinate plans and programs for organizational expansion.
- Direct project execution at the divisional level.

EDUCATION

Associates of Applied Science Audio/Visual Technology

Art Institute of Colorado // Denver, Colorado // 1996
